SKILLS

- ❖ **Frontend** - HTML , CSS , JavaScript , ReactJS , React-Redux , React-Router
- ❖ **Backend** - NodeJS , ExpressJS
- ❖ **DataBase** - MongoDB , SQL
- ❖ **Language** - Java,C,Python

EXPERIENCE

- ❖ Interned at Bharat Intern for one month, where I contributed to projects like the Temperature Converter and Portfolio Website. This experience deepened my web development skills and reinforced my commitment to continuous learning.

EDUCATION

- ❖ Information Technology (TY) | SVIT
 - ❖ XII (GSEB) | SEMT
- CGPA: 8.78 | 06-03-2024
82.56% | 2021

ACADEMIC PROJECTS

❖ iNotebook [Link](#)

iNotebook is developed using the MERN stack. It incorporates a secure login/signup feature, providing users with personalized accounts to safeguard their data and access additional functionalities effortlessly. Enjoy seamless authentication and account management for a tailored note-taking experience.

❖ TextUtils [Link](#)

Created a TextUtil app using React, enabling text transformations such as conversion to upper and lower case, pascal and camel case, and removal of extra spaces. Demonstrated proficiency in React to build a user-friendly tool for text manipulation.

❖ Mobile E-Commerce Website [Link](#)

Phonewala is developed using MERN stack. It incorporates a secure login/signup feature, and personalized cart for each user. Seamlessly add products and manage your selections, enhancing the shopping experience with convenience and efficiency.

❖ Portfolio Website with HTML , CSS , JavaScript [Link](#)

Crafted a personalized portfolio website utilizing HTML, CSS, and JavaScript. Implemented interactive elements, demonstrating proficiency in front-end development. The website serves as a showcase of skills, projects, and a testament to my commitment to web design excellence.
