SKILLS

- ❖ **Frontend -** HTML , CSS , JavaScript , ReactJS , Redux
- ❖ **Backend -** NodeJS , ExpressJS
- ❖ **DataBase -** MongoDB , SQL

EXPERIENCE

- ❖ Interned at Bharat Intern for one month, where I contributed to projects like the Temperature Converter and Portfolio Website. This experience deepened my web development skills and reinforced my commitment to continuous learning.

EDUCATION

- ❖ Information Technology (TY) |SVIT   *CGPA***:** *8.78 | 06-03-2024*
- ❖ XII (GSEB) | SEMT   *82.56% | 2021*

ACADEMIC PROJECTS

- ❖ **iNotebook Link**

  iNotebook is developed using the MERN stack.It corporates a secure login/signup feature, providing users with personalized accounts to safeguard their data and access additional functionalities effortlessly. Enjoy seamless authentication and account management for a tailored note-taking experience.

- ❖ **TextUtils Link**

  Created a TextUtil app using React, enabling text transformations such as conversion to upper and lower case, pascal and camel case, and removal of extra spaces. Demonstrated proficiency in React to build a user-friendly tool for text manipulation.

- ❖ **Mobile E-Commerce Website Link**

  Phonewala is developed using MERN stack.It corporates a secure login/signup feature, and personalized cart for each user. Seamlessly add products and manage your selections, enhancing the shopping experience with convenience and efficiency.

- ❖ **Portfolio Website with HTML , CSS , JavaScript Link**

  Crafted a personalized portfolio website utilizing HTML, CSS, and JavaScript. Implemented interactive elements, demonstrating proficiency in front-end development. The website serves as a showcase of skills, projects, and a testament to my commitment to web design excellence.
